

26FW COLLECTION

NY/PU

A functional fabric woven from lightweight yet highly durable nylon and stretchy polyurethane. It features 4-way stretch in both warp and weft directions, water repellency, and UV protection, making it ideal not only for everyday urban use but also for leisure and outdoor activities. Additionally, it dries quickly after washing and resists wrinkles, offering easy-care convenience.

TC JERSEY

This fabric is a jersey material made from cotton-polyester MVS yarn, featuring a dry touch and resistance to pilling. On the surface, the cotton-polyester yarn provides a texture similar to natural fibers, while the back side reveals polyester yarn with excellent moisture absorption, combining a casual appearance with functional performance. Additionally, the fabric is treated with an antibacterial and deodorizing finish during production, helping to suppress unpleasant odors.

SHADOW NYLON

An outerwear series featuring water-repellent nylon with a distinctive sheen for the face fabric. The fabric undergoes a special dyeing process, resulting in a rich texture that subtly changes with the angle of light. The insulation uses functional padding made from specially structured hollow yarn, offering excellent lightweight warmth and loft.
